## PROJECT

### IK Fashion Clothing Management System

March 2024

- Built a full – stack management system using Java, JavaFX, MySQL. It follows a layered architecture for clean separation of concerns and maintainability.

### E - Commerce Web Application

January 2025

- Developed a web application with features to view products, add to cart and place orders. Developed using Hibernate, JPA, Java 17, Maven, MySQL.

### Salon Appointment Booking System

June 2025

- Salon appointment booking system supports user - login, appointment, and email notification. SpringBoot, MySQL Server and Bootstrap are used for this.

### Smart Parking Management System ( SPMS )

July 2025

- SpringBoot microservices, Eureka service discovery, Spring cloud config and API Gateway architectures have been used for this project.

### Book Club Web Application

August 2025

- Book club web application built with React, TypeScript, MongoDB, Express, Node. Js , node mailer, provides a clean and user friendly interface.

## SKILLS
